

COVID-19 Patient Information

Patient presents to Lavery ACC or Drive-through facility

No Symptoms

e.g. workplace surveillance,
close contact, positive RAT

Continue to self-isolate until result is available if instructed to do so e.g. by NSW Health, GP, or if RAT positive.

Negative result

Continue to self-isolate if instructed to do so until a date which is specified by NSW Health or Australian Government protocol. If not, then there is no need for self-isolation. Continue to social distance.

POSITIVE Result

- Self-isolate from other household members as far as possible
- If you become unwell, contact your GP

Symptoms

e.g. cough, sore throat, fever

Continue to self-isolate until result is available.

Negative result

NOTE: Symptoms may be due to other respiratory infections or rarely due to COVID-19 which was not detected on initial testing

- Stay at home until recovered
- Discuss with your GP
- Consider further testing

POSITIVE Result

- Self-isolate from other household members as far as possible; wear a mask
- Have a repeat test if you continue to have symptoms on day 6
- If you become unwell, contact your GP
