**Disclaimer:** QML Pathology advises that pathology tests are usually requested by a patient's doctor as they are medically qualified to interpret and/or analyse the results. QML Pathology offers a limited range of self requested pathology tests because some panels of testing are complex and there may be the possibility of misinterpretation of pathology results in the absence of medical symptoms discussed as part of a medical consultation. Patients requesting self determined testing will need to consult their local medical professional if they require interpretive advice.
