

Salivary Drug Screen

Cost: There is an out of pocket fee for this test unless a third party has been nominated. If you nominate a third party to pay, you must provide Western Diagnostic Pathology with a written statement such as a Purchase order or request form (paper/email or text message) from the third party clearly stating they will accept the costs. Without payment the collection will not proceed.

What to Expect

- Photo ID must be shown to the collector prior to collection.
- You must not eat drink smoke, vape or rinse your mouth for at least 10 minutes before the test.
- The collector will be in view while you swab the inside of your mouth.
- The collector will be present with you during the testing. Please follow all instructions given by them during the procedure.
- A form will be given to you to complete asking about your current medications, other personal information and consent. Please read and complete to the best of your ability.

Sample Collection – General Overview

The collector will give you the instant device which you will swab over your mouth until it is soaked with fluid. Do not suck or chew on the swab. If the test is “non-negative” and your company requires confirmation, then a second collection will take place and these samples are sent to the laboratory. This will be at a further cost.
